

Phase 4: Insert Script Ordering

Below is the order that the scripts were run for this assignment:

1. *seller.sql*
2. *agent.sql*
3. *house.sql*
4. *buyer.sql*
5. *dependent.sql*

The screenshot displays the SQL Server Enterprise Manager interface. At the top, the title bar reads "cfuller1_4125". Below it, the "Query Builder" tab is active, showing a list of SQL files in a tree view: "realstate_schema.sql", "seller.sql", "agent.sql", "house.sql", "buyer.sql", and "dependent.sql". The "dependent.sql" file is selected. Below the tree view, the "Script Output" window is open, displaying the results of a script execution. The output shows a series of "Commit complete." and "1 row inserted." messages, indicating that the script successfully executed and inserted data into the database. The status bar at the bottom indicates "Task completed in 3.629 seconds".
